DENOMINACIÓN DE ORIGEN

## *Bathed by the waters of the Cantabrian Sea*

Olatu (wave in Basque) is an exceptional wine that only a select few have the opportunity to taste as the Txakoli variety has a very limited production. It is only produced in the Basque Country, along the Cantabrian coast. Olatu is a special wine, a remarkable Txakoli.

Txakoli is a relatively unknown wine made along a short coastal strip of the Cantabrian Sea, which translates into limited production and an exclusive wine.

A wine whose quality has improved dramatically thanks to refined production techniques, Txakoli has kept its traditional character as the vines are grown by small producers who do their job carefully and lovingly.

A wine that comes from a land where food is revered with a religious-like feeling, where you can taste the best grilled fresh fish and where restaurants boast the highest number of Michelin stars per capita in the world.
